

TRIAX XTERRA 4-T

FULL SYNTHETIC ENGINE OILS FOR MOTORCYCLES, QUADS, ATV

TRIAX XTERRA Synthetics are high performance products designed to meet the latest 4T motorcycle manufacturer's warranty requirement. Specifically formulated to meet the demands of the small displacement high RPM fuel efficient engines found in today's domestic and foreign motorcycles. These engines experience higher operating temperatures and require motor oil which offers maximum protection against both viscosity and thermal breakdown. Specific viscosity grades meet all the requirements specified by JASO 4T specification. These oils are 100 % Synthetic premium base oils using special additives which protects against high temperature oxidation, wear and viscosity breakdown. It is fortified with detergent-dispersants and rust and corrosion inhibitors to keep engines exceptionally clean and free of sludge, varnish and rust.

TRIAX XTERRA 4T Synthetics offer outstanding wear protection in all aspects unique to motorcycles, quads and ATVs, such as air cooled engines, very high RPM's, rapid torque increase, wet-clutches, extreme pressure gears as well as chains. Very low oxidation makes this product ideal for storing during the winter months, allowing you to just turn it on and go once the weather is good enough!

PERFORMANCE HIGHLIGHTS

- Meets and exceeds all Japanese, US and European OEM warranty requirements.
- Excellent performance and high wear protection in high temp engines such as the V-TWIN
- Prevents clutch degradation and pitting from acidity and rust
- Highly oxidation stability prevents oil thickening, high temperature sludge and varnish deposits.
- Shear stable viscosity index improver-protects against viscosity breakdown in severe service
- Outstanding protection in racing conditions
- State-of-the art, highly effective detergent-dispersants keeps engine parts clean.
- Improved fuel economy means better gasoline mileage.
- Anti-wear agents effectively protect cam lobes, chains and clutches.
- Smooth and rapid gear changes at all times

APPLICATIONS

4 STROKE GASOLINE ENGINES IN MOTORCYCLES, ATVs, QUADS, SNOWMOBILES

TRIAX XTERRA Synthetic 4T oils exceed API requirements of SL, JASO MA2 and is recommended for domestic and foreign high performance 4T motorcycle, ATV and Quad engines. Exceeds the warranty requirements of all OEMs like Honda, Kawasaki, Suzuki, Polaris, Bombardier, Ducati, Can-Am/BMW and Yamaha motorcycles, ATVs and Quad manufacturers requiring a 4T engine oil.
