PERFORMANCE LIKE NOTHING ELSE™

TRiAX High Mileage Oil Treatment is a specialty product designed to combat the symptoms of engine wear and restore vehicle functionality. Its a high grade synthetic product, containing a wide range of additives to revitalize engine oils and restore vehicle functionality.

TRiAX High Mileage Oil Treatment contains seal revitalizers, corrosion inhibitors, viscosity stabilizers and anti-wear agents for improved oil performance and engine protection.

APPLICATIONS

This product is recommended for older, high mileage (100,000 miles +) gasoline and diesel vehicles exhibiting symptoms of wear.

For use in: Passenger Cars, SUVs, Gasoline Trucks, Heavy Duty Diesel Trucks, Equipment, Small Engines (Mowers, tractors, etc)

PERFORMANCE HIGHLIGHTS

- Stops engine oil leaks
- Quiets noisy valves and lifters
- Stabilizes viscosity
- Prevents oil burning
- Prevents piston blow-by and oil from getting into the combustion chambers
- Quiets various engine noises
- Stops engine vibration at startup
- Coats moving parts, like pistons, rings, bearings, valves and lifters helping to prevent wear and noise

HOW TO USE

USE - 12 oz bottle treats 5 Quarts of engine oil. Ratio of additive to motor oils approximately 1 to 15. 1 oz of additive for every 12 oz of motor oil. DO NOT use in transmissions or hydraulic systems.

CHEMICAL PROPERTIES

TEST CRITERIA	VALUE
Specific Gravity, (60°F)	0.893
Viscosity, @ 40°C, cSt	>25
Viscosity Index	149
Flash Point, °C	209
Pour Point, °C (°F)	- 25 C
Color	Light Amber
VOC Content	<1%
